

LRCC Alerts

Lakes Region Community College students are automatically registered to receive alerts via college email but need to register (opt in) and provide emergency contact information to receive ALERTS via phone and/or text messaging. To register for LRCC Alerts, log into the Student Information System (SIS) and select LRCC Alerts under Personal Information.

There is no charge for LRCC ALERTS; however, students should check their phone plans for potential charges associated with text messaging. Please be aware, LRCC will not reimburse for text messages.
